Rollovers

A rollover is a way to move money or property from a medical savings account (MSA) or existing health savings account (HSA) to a Start HSA. The Internal Revenue Code (IRC) limits how many rollovers may be taken, how quickly rollovers must be completed, and how the custodian must report the transaction.

1. Timelines

The funds you receive from an MSA or HSA must be deposited into an HSA within 60 days of receiving them. When counting the 60 days, include weekends and holidays. Receipt generally means the day you actually have the funds in hand. For example, the 60 days would begin on the day you pick up the check from the Custodian or you receive the check in the mail. The 60 day rule is set by the IRS and cannot be changed by Start.

2. Twelve-month restriction

You are entitled to one distribution per year per HSA, which may be rolled over to another HSA. Twelve (12) months must pass after receipt of one rollover before you may make another distribution from the same HSA to rollover.

Note: Incomplete forms will not be processed. In such cases, we will attempt to contact you via email or phone to advise that the form was missing information.
